Work with anyone, anywhere no matter what CAD software they use. Use cloud-based design reviews to collect feedback from key stakeholders wherever they are. Follow the entire product development lifecycle with one data model.

Inventor | Mechanical Design & 3D CAD Software | Autodesk

Create the deployment from a workstation instead of a server. This helps eliminate the need for the same computer to run the installer, read the media, and write the files. The combination of these tasks can increase the time necessary to create the deployment and can cause corruption in the deployment. Create the deployment to a shared network location from an administrative workstation.
