The quadrant is labeled on the Learning Style Inventory in italics. Kolb (1984) describes the characteristics of each style based on both research and clinical observation. Convergent --The convergent learning style relies primarily on the dominant learning abilities of abstract conceptualization and active experimentation.

The Learning Style Inventory - College of Medicine

David Kolb published his learning styles model in 1984 from which he developed his learning style inventory. Kolb's experiential learning theory works on two levels: a four-stage cycle of learning and four separate learning styles. Much of Kolb's theory is concerned with the learner's internal cognitive processes.

Kolb's Learning Styles and Experiential Learning Cycle ...

Your Kolb Learning Style describes the unique way you spiral through Kolb's Experiential Learning Cycle. There is no right or wrong way on how a learner spirals through the experiential learning cycle and each person has their own preferred path. How a learner enters the cycle of learning depends on his/her individual preferences to learning.
